He is really awful but so is the whole community. His other x I can't find but I know one other girl who has a bunch of the stuff documented (he never hit her was just weird and lied to her a bunch) but she's genuinely scared of him because he was like really obsessed with her he would take the other girl to like spots they could possibly run into eachother and stuff it was really odd but I'll find all of the stuff there was a whole giant thread on him

I'm tired of defending and sticking up for you. For the past few months Connor Miller has been physically and mentally abusing me. I made a mistake, I'm not perfect and it hurt Connor and damaged our trust. When this whole situation happened a few months ago Connor called me crying screaming telling me he was going to kill himself, I freaked out and he told me he was going to come over to say goodbye. When he got to my house he pushed past me, locked me out of the room so I had to break the lock and when I entered the room he was trying to take back things he had given me as gifts. I panicked and asked him to stop and tried to grab my things so he pushed me against the wall and threw a glass of water in my face then punched me in the chest, I did not call the police. Fast forward we got back together and he started making me feel horrible every night. It was so bad that for weeks every night I was having horrible panic attack's and trying to kill myself. Fast forward more Connor walks down the stairs fuming at me, I ask him what's wrong and he proceeded to throw a cup of water in my face (again), slightly strangle me, throw my watch on the ground, and then told me we were breaking up.
The next day I tried to go upstairs to speak to

The next day I tried to go upstairs to speak to him and talk things out, when I entered his room he yelled at me and shoved me out as hard as could and bruised my arm by hitting it with a shoe. At this point I was told I had 1-2 days to move out. But this suddenly turned into 15 minutes as Connor began texting me threatening me telling me he was going to break all of my things if they weren't moved out in that time limit, telling me to kill myself etc . I was scared and at my breaking point so I told him if he did so I was going to call the police, he did indeed lock himself in my room and proceed to start breaking my things so I called the cops. They took pictures of the bruise on my arm and neck and my watch and asked I wanted to press charges to which I said no I just wanted to move my things out and drive to Oklahoma to go be with my family. I stopped to get gas and called Connor to ask him to come and meet me and told him I declined pressing charges against him. I got into his car and my behavior in this situation was not ok at all but I threatened Connor and told him if he wouldn't stay with me I was going to report him to the police (I was saying this out of anger which still isn't ok and I do regret it) to which Connor lost his shit and immediately started driving hysterically and punching me in the face, scratching me.

I did not call the police again and we stayed together. A few weeks ago Connor and I got into an argument and it ended with him strangling me with BOTH hands this time and putting all his weight on top of me so I couldn't move or fight him off. I am not a perfect person, but you are an awful awful human being

Hi [redacted] it's [redacted] I just wanted to say I'm sorry for how I acted towards you. Connors been physically and mentally abusing me for really long like a few months and I just found out he's been cheating on me :D I'm really sorry for how I acted towards you.
I was really brainwashed and I had no idea about what kind of person he really was.
